

## Hard Hat™ Regulator Guards

Protect regulators from costly gauge replacement with Smith's Hard Hat™ gauge guards. Promotes safety . . . designed to help prevent broken gauges which can lead to gas leaks. Time and cost savings . . . helps prevent costly equipment down time and expensive repairs.

**HB190 Hard Hat™** is made from rugged steel. Bright yellow, baked enamel finish. Quickly and easily attaches to regulator. **Fits:** Series 40™, HB1500 and HB2100 series brass regulators.

**H195 Hard Hat™** is formed from impact-resistant Lexan™ resin, an extremely tough, durable poly-carbonate. Bright safety yellow finish. **Fits:** Series 30™ and 1700 Series single stage regulators.

**NOTE:** Will not work with flow gauge regulators.

**H197 Hard Hat™** is formed from impact-resistant Lexan™ resin, an extremely tough, durable poly-carbonate. Bright safety yellow finish. **Fits:** Series 30™ two stage regulators.

**NOTE:** H197 will not fit 1400 Series two stage regulators.
